

**CROWN VALLEY ROAD, ET AL.  
PAVEMENT PRESERVATION**

**NOTICE OF UPCOMING PROJECT**

Los Angeles County Public Works is pleased to inform you of an upcoming pavement preservation project in your community scheduled from May 1, 2023 to June 23, 2023. Please see the attached map for the project limits.

The roadway will be preserved with a cape seal, which preserves the underlying pavement structure and provides a smoother, more finished driving surface.

Temporary "NO PARKING" signs and door hangers will be posted at least two days prior to the start of work on your street. The project will be phased to accommodate parking. For your safety and project success, please observe all traffic controls, detour routes, parking restrictions, and flagmen, exercise caution while in the vicinity of all construction activities.

During slurry seal work on your street, the road will be closed between 7:00 a.m. and 5:00 p.m. please make necessary arrangements for travel. If you drive on the road during this time, the treatment will be less effective, may stick to tires, and could stain your driveway. Once the streets are reopened, normal driving on the treated surface may still cause some tire tracks and marks from turning wheels, especially at the ends of cul-de-sacs. This is mostly unavoidable; however, the structural integrity of the seal will not be affected. Marks will mostly disappear with time and traffic.

Additionally, cracks will begin to appear within 12 months of the treatment. This is normal. The surface cracks are a reflection of older cracks that were already existing prior to the treatment. However, these older cracks have now been sealed against moisture intrusion, thus delaying further deterioration of the roadway.

If you have any questions, please contact Stella Higgins at (661) 947-7173 Ext. 245 between 7:00 a.m. and 4:00 p.m., Monday through Thursday. You may also contact Road Maintenance Yard 557 at (661) 272-0817 between 7:00 a.m. to 4:00 p.m. Reference **Crown Valley Road Et Al Project**.
